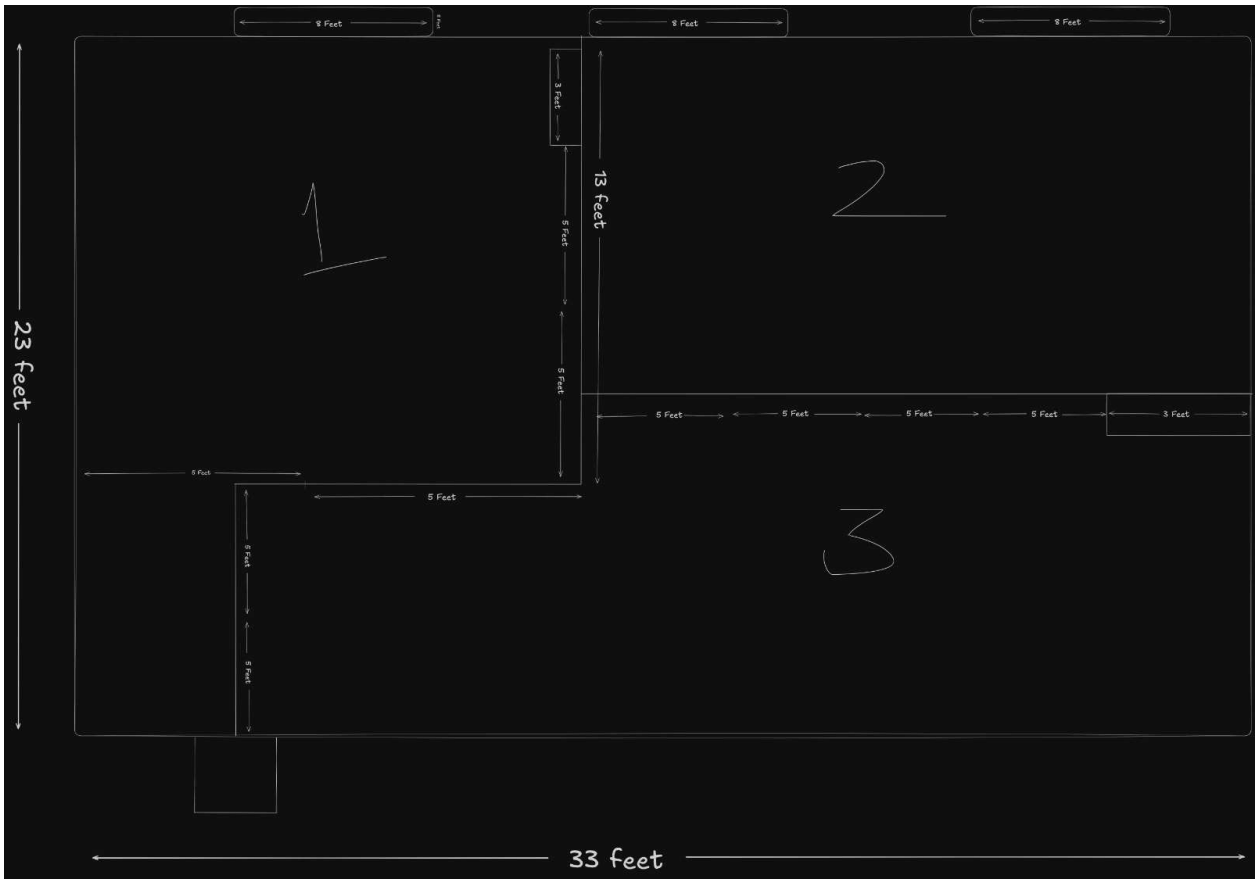
- Fake prop money (x2 bundles)
- Radium strips tape (5 m long)(x1)
- Sticky notes (x2)
- Cardboard (x10)
- Thermacol (x10)
- Magnets (x5)

For room partitions:
For the mystery rooms, each room will be divided into three separate compartments as shown below.
The idea is that the participating team will enter compartment 1, solve puzzles and riddles in that, find the key to unlock the cardboard door of compartment 1 leading to compartment 2 and enter compartment 2 .
And this same process will be there in compartment 2 and compartment 3.

So it is of utmost importance that the partition of the compartments is strong and sturdy.



Partitions with thin/small base **ON RENT**
Or
Plywood / Sturdy cardboards of the following dimensions
Preferably more than 4 mm in thickness, we just need it to divide the rooms
(for each room, meaning need twice of this)

- Lengthwise partition
  25ft width x 8ft height
  (that means 5 partitions of 5ft width x 8ft height)
- Widthwise partition
  20 ft width x 8ft height
  (that means 4 partitions of 5ft x 8ft height)

  So in total 9 partitions of 5ft x 8ft.

Since this is a major part of the room, we would appreciate it if we are informed about what partitions are available before confirming any payment or purchase.
